I .ABOUT THE PROPONENT

M/s Royal Sand and Gravels Private Limited possess a quarry project in Akathethara Village, Akathethara Panchayath, Palakkad Taluk, Palakkad District, Kerala State.

State level Environment Impact Assessment Authority Kerala (SEIAAKerala) accorded Environmental Clearance No. 160/SEIAA/KL/3490/2013 dated 24.05.2014 to the quarry project in Akathethara Village, Akathethara Panchayath, Palakkad Taluk, Palakkad, District, Kerala managed by M/s Royal Sand and Gravels Private Limited. An erratum regarding the validity of EC has been issued vide Proceedings no.160/SEIAA/KL/3490/2013 dated 16.02.2019 of SEIAA Kerala. The Life of Mine is 28 Years. Copy of the order is attached as **Annexure 1** (Pages A1 to A6).

The Certified Compliance Report Issued By The MoEF & CC Regional Office Bangaluru Dated 23.04.2024 Is Also Attached As Annexure 1.2 (Page No A 9 TO A 22) Where It Is Certified That All Environmental Clearance Conditions Are Satisfactorily Complied With

M/s Royal Sand and Gravels Private Limited is controlled and managed by Mr. Mohammed Fazeel T.A, Managing Director, M/s Royal Sand & Gravels (P) Ltd., Plaza Junction, Dhoni P.O., Palakkad-678009, Mob.No.09447129278

E-mail: royal_grs@yahoo.com, fazeeroyal@gmail.com.

Among the conditions specified in the said Environmental Clearance (EC), it is mandatory to file six-monthly compliance report(s). This report is in compliance of it; and the Twenty-Third report in its series.

II. ABOUT THE PROJECT

a. Project category:

The project comes under the Category B2, Activity1 (a) of Schedule of EIA Notification2006 and subsequent amendments.

b. Project location:

Sy. Nos. 2, 14, 15 and 16/1 at Akathethara Village and Panchayath, at block 25 Palakkad Taluk, Palakkad District, Kerala,678009. The proposed project site falls within $10^{\circ} 51'24.53''$ Nto $10^{\circ}51'38.56''$ Nand $76^{\circ}37'50.95''$ E to $76^{\circ}38'5.63''$ E.

c. Project extent and activity:

The project is for quarrying of 3,50,000 MTA of building stone from an area of 9.3928 hectares of land located as specified above. The expected life of mine is 28 years.

d. Project description:

The proposed project activity involves about 100 % of the pit area for exploring building stone. At the end of life of mine, excavated pit will be backfilled and reclaimed and rehabilitated by plantation leaving no void. The proposed project does not involve any underground mining activities .The mining will be done by open cast semi mechanized method. The sewage of 0.8 KLD generated from the mine office will be diverted to the septic tank followed by soak pit.

III. REPORT OF COMPLIANCE

A.SPECIFIC CONDITIONS

Item No.	Stipulations in EC	Status of Compliance	Remarks
S1	Limit quarry to the stream on the eastern side to permit unhindered flow of the stream.	Special care is taken to ensure that quarrying is limited to the stream on the eastern side.	
S2	Leave statutory distance from the forest land on the north.	Following and Maintaining Specific Conditions Without Fail	
S3	The stream may be provided with low level check dams to trap silt.	Check dam to trap silt is provided.	<u>Plate S.3</u> - Check Dam (Page 23)
S4	Rain water harvesting facility is required in the absence of dependable source of water.	Provision is made to store rain water in ponds even when sufficient dependable source of water is available for the present project.	<u>Plate S.4</u> – Rain water storage area (Page 24)

B.GENERAL CONDITIONS

Item No.	Stipulations in EC	Status of Compliance	Remarks
G1	Rain Water Harvesting capacity should Be installed as per the prevailing provisions of KMBR/KPBR, unless otherwise specified elsewhere.	Provision is made to store rain water in ponds.	Plate S.4 -Rainwater storage area (Page 24)
G2	Environment Monitoring Cell as agreed under the affidavit filed by the proponent should be formed and made Functional.	Environment Monitoring Cell constituted is fully functional .Copies of minutes of meetings of Environment Monitoring Cell held from April 2025 to September 2025 are attached as Annexure G.2 .	Annexure G.2 – Copies of minutes of meeting of Environment Monitoring Cell (Page A23-A28)
G3	Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, inclusive of approach road and internal roads.	Avenue trees by way of natural vegetation are present on either side of the tarred road and open parking areas. Besides this, saplings of bamboo area also planted along either side of the tarred road Or open parking areas inclusive of approach road and internal roads.	Plate G.3 Avenue Trees Planted In Parking Area (Page-25)
G4	The project shall incorporate devices for Solar energy generation and utilization wherever possible.	Solar panels are installed within the project area And street lights connected with them lit up the area.	Plate G.4 Solar Lights installed in site (Page- 26)
G5	Sprinklers shall be installed and used in The project site to contain dust emissions.	In order to contain dust emissions, sprinklers are installed inside the project site.	Plate G.5 Sprinkler along with tarred road (Page 27)

G6	Eco-restoration including the mine Closure plan shall be done at the own cost of the project proponent.	The condition shall be followed scrupulously.	Plate G.6 Eco-Restoration (Page- 28)
G7	At least 10 percent out of the total Excavated pit area should be retained as water storage areas and the remaining area should be reclaimed with stacked dumping and overburden and planted with indigenous plant species that are eco-friendly.	The directions contained shall be scrupulously followed at the time of mine closure.	
G8	Corporate Social Responsibility (CSR) agreed upon by the proponent should be implemented in tune with the conditions specified in the Companies Act, 2013.	CSR component is implemented in tune with the proposed ones. An amount of Rs 103710/- has been spent towards CSR for the period from April 2025 TO September 2025 for various activities. The copies of receipts of which are attached as Annexure G.8.	Annexure G.8 – Copies of receipts of the amount spent towards CSR for the period from April 2025 To September 2025 (Page – A23-A28)
G9	Barbed metal wire fencing around the Mining area shall be provided with a height of not less than 5 ft so that falling of animals/human beings/dumping of garbage's, etc. does not happen.	Barbed metal wire fencing around the mining area with a height of not less than 5 feet is provided.	Plate G.9 - Barbed Metal Wire Fencing (Page 29)
G10	Warning alarms indicating the time of Blasting (to be done at specific timings) has to be arranged as per stipulations of Explosive Department.	Warning alarms indicating the time of blasting is arranged.	Plate G.10 - Warning Alarm (Page 30)
G11	Control measures on noise and vibration prescribed by KSPCB should be implemented.	The directions contained are being scrupulously followed. In order to control noise, proper maintenance of machinery and maintenance of wide green belt are being done. Controlled blasting technique is used to reduce blast Vibrations.	

G12	Quarrying activities should be limited to day time as per KSPCB guidelines.	Quarrying activities are done only during day time And is in tune with the KSPCB guidelines. Blasting is done at 10am,1pm,and 5pm.	Plate G.12 –Blasting time display(Page 31)
G13	Blasting should be done in a controlled Manner as specified by the regulations of Explosives Department or any other concerned agency.	Blasting is done using Non-delayed detonator (NONEL) as stipulated by the Explosives Department.	
G14	A licensed person should supervise/control the blasting operations.	Sri Gurusamy (who is holding certificate of mining mate competency) to manage and supervising blasting operation at present.	Annexure G.14 Copy Of Certificates of Sri. Gurusamy (Page A38-A40)
G15	Access roads to the quarry shall be Tarded to contain dust emissions that may arise during transportation of materials.	Access roads to the project site are tarred and sprinklers fitted on sites of internal and external roads	Plate G.15 Tarred road access and Dust prevention(Page 32)

G16	Overburden materials should be Managed within the site and the old quarries, if any, should be reclaimed and restored.	Overburden is stacked in pre-determined site specified for the purpose.	<u>Plate G.16</u> – Over Burden Stack (Page 33)
G17	Height of benches should not exceed 5m and width should not be less than 5m.	Height and width of benches is maintained as 5m x 5m.	
G18	Mats to reduce fly rock blast to a maximum of 10 PPV should be provided.	Mats are used while the time of blasting.	<u>Plate G.18</u> – Using 10PPV Mat (Page 34)
G19	Mining depth should not exceed beyond 40m, unless otherwise specified or not Below the level of nearest stream bed, Whichever is less.	Mining depth is above the ground level at present.	
G20	No mining operations should be carried Out at places having a slope greater than 45°.	It is ensured that no mining is carried out at places having a slope greater than 45°, if any.	
G21	Acoustic enclosures should have been Provided to reduce sound amplifications in addition to the provisions of greenbelt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB.	Acoustic enclosures are provided for the crusher unit to reduce sound amplifications in addition to the provisions of greenbelt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by KSPCB.	<u>Plate G.21</u> –Acoustic Enclosure.(Page 35)

G22	The workers on the site should be Provided with the required protective equipment such as safety shoe, mask, earmuffs, helmet, etc.	The workers on the site are provided with the required protective equipment such as safety shoe, mask, ear muffs and helmets.	Plate G.22 Workers Working With Safety Equipment(Page 36)
G23	Garlanddrains with clarifiers to be Provided in the lower slopes around the core area to channelize storm water.	Garland drains are provided to channelize storm water.	Plate G.23 Garland Drain (Page 37)
G24	The transportation of minerals should be Done in covered trucks to contain dust emissions.	The transportation of minerals is done in covered trucks to contain dust emissions.	Plate G.24 – Transportation of minerals in covered truck (Page38)
G25	The proponent should plant trees at least 5 times of the loss that has been occurred while clearing the land for the project.	Badam Trees And Mahogany are already grown in the site while clearing the land for the project. Further ,saplings of indigenous plant species like ,Guava,Cashew, Neam,Gulmohar ,Divi-Divi,Teak,Gooseberry,Acacia,Mangium,etc.are also grown in the site and a well-planned green belt area is also maintained with in the project area	PlateG.25 –Trees planted in the site (Page39)
G26	Disposal of spent oil from diesel engines Should be as specified under relevant Rules/Regulations.	Spent oil is collected by KSPCB approved recycler. letter from recycler attached as Annexure G.26	Plate G.26 Used filters and oil (Page 40) Annexure G.26 – Letter From KSPCB Approved Recycler(Page A41)
G27	Explosives should be stored in Magazines in isolated place specified and approved by the Explosives Department.	Explosives are stored in magazines in isolated place as stipulated by the Explosives Department.	Plate G.27 – Magazine (Page 40)

G28	Norms of Kerala State Pollution Control Board should be adhered to regarding distance criteria of residences, roads, rivers and worship places.	Scrupulously follows the directions contained.	
G29	200 m buffer distance should be maintained from forest boundaries.	Following And Maintaining Specific Conditions as per Environmental Clearance.	
G30	Consent from Kerala State Pollution Control Board under Water and Air (Acts) should have been obtained before initiating activity.	<p>Integrated Consent to Operate - Renewal (Consent No.KSPCB / PL/ICO / 10083258/dt.26.11.2024valid up to 23.05.2029), (File No. KSPCB/PL/ICO/10083258 /2024)is obtained from Kerala State Pollution Control Board for quarrying.[AnnexureG.30]</p>	<p><u>Annexure G.30</u> –Copy of Consent to Operate issued by Kerala State Pollution Control Board for quarry (Pages A 42-A43)</p>

G31	<p>All other statutory Clearances should have been obtained, as applicable, by project proponents from the respective competent authorities including that for blasting and storage of explosives.</p>	<p>Clearances are obtained from:</p> <ol style="list-style-type: none"> 1. Akathethara Grama Panchayath [Annexure G.31(1)] 2. Petroleum and Explosives Safety Organization (former Explosives Department) [Annexure G.31(2)] 3. Department of Mining and Geology [Annexure G.31(3)(1), Annexure G.31(3)(2)] 	<p>Annexure G.31(1) – Copies of licenses (A2-1254/2025-26 for the quarry (valid up to 31.03.2030) issued by Akathethara Grama Panchayath (Pages A44-A45)</p> <p>Annexure G.31 (2) – Copy of license (No. E/SC/KL/22/1222(E61052) dt. 03.02.2025 valid up to 31.03.2030) issued by the Petroleum and Explosives Safety Organization for possession for use of explosives from magazine. (Pages A46 TO A47)</p> <p>Annexure G.31(3)(1) – Copy of quarrying lease Deed valid for a period of 12 years from 22.08.14 to 21.08.26 (Pages A48- A56)</p> <p>Annexure G.31(3)(2) – Copy of additional quarrying lease deed granting permission to enhance the average annual extraction from 1,00,000 tonnes to 3,00,000 tonnes valid up to 21.08.2026 (Pages- A57- A61)</p>
-----	--	---	--

G32	<p>In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Authority.</p>	<p>The company shall abide by the directions of SEIAA Kerala in such a context, if arises.</p>	
G33	<p>The Authority reserves the right to add additional safeguard measures Subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment(Protection)Act,1986,to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.</p>	<p>The company shall abide by the directions of SEIAA Kerala in such a context, if arises.</p>	
G34	<p>The stipulations by Statutory Authorities Under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.</p>	<p>Strict compliance shall be adhered to the condition specified herein.</p>	

G.35	<p>The project proponent should advertisement in at least two local newspapers widely circulated in the region, one of which(both the advertisement and newspaper) shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the department of Environment and Climate Change, Govt of Kerala and may also be seen on the Website of the Authority at www.seiaakerala.org. The advertisement should be made within 10 days from the date of receipt of the Clearance letter and a copy of the same signed In all pages should be forwarded to the office of this Authority as confirmation</p>	<ul style="list-style-type: none"> • Advertisements regarding the obtaining of Environmental Clearance were given in two newspapers: <p>1.Kerala Kaumudi (Malayalam daily) dt.04.06.20214 2.The New Indian Express (English daily) dt.05.06.2014</p> <ul style="list-style-type: none"> • The Copies of Newspaper Advertisement had been forwarded to the Directorate of Environment and Climate Change. 	<p><u>Annexure G.35</u> - Environmental Clearance were given in two newspapers (Page A 62)</p>

ANNEXURE- 1

Validity expires on 23.05.2019

Proceedings of the State Environment Impact Assessment Authority Kerala

Present: Prof. (Dr.) K.P. Joy, Chairman; Dr. J. Subhashini, Member; Sri. P.K. Mohanty IAS, Member Secretary

Sub: SEIAA Kerala – Quarry project in Sy. Nos. 2, 14, 15 and 16/1 at Akathethara Village and Panchayath, Palakkad Taluk, Palakkad District, Kerala by M/s Royal Sand & Gravels Pvt. Ltd. – Environmental Clearance under EIA Notification 2006 accorded – Orders issued

Environmental Clearance

No. 160/SEIAA/KL/3490/2013

dated, Thiruvananthapuram, 23.05.2014

Read:- SEIAA Kerala Minutes of the 30th meeting dt. 09-05-2014

ORDER

Mr. Mohammed Fazeel T.A. has applied for Environmental Clearance vide application received on 09-12-2013 for the quarry project of M/s Royal Sand & Gravels Pvt. Ltd. in Sy. Nos. 2, 14, 15 and 16/1 at Akathethara Village and Panchayath, Palakkad Taluk, Palakkad District, Kerala from 9.3928 hectares for the extraction of minor minerals. The land use classification as per revenue records is private land. Out of the total 11.6655 hectares of land owned by the proponent, the lease area consists of 9.3928 hectares which is private land and the present land use is quarrying activities. The current proposal is for the existing quarry and hence no alternate site was examined as the project site is mineral specific. The proposed quarry site is private land and is possessed in the name of M/s Royal Sand & Gravels Pvt. Ltd. Forest land is not involved in the project. It is interalia, noted that the project comes under Category B2, Activity 1(a), (i) of Schedule of EIA Notification 2006. The proposed project site falls within 10^o 51' 24.53" N to 10^o 51' 38.56" N and 76^o 37' 50.95" E to 76^o 38' 5.63" E. The proposed project is for quarrying of 3,50,000 MTA of building stone from an area of 9.3928 hectares of land. The expected life of mine will be 28 years.

The proposal has been appraised by the State Level Expert Appraisal Committee Kerala constituted by the competent authority, as per prescribed procedure in the lights of provisions under the EIA Notification 2006 and subsequent amendments, in its 23rd meeting held on 6th and 7th January 2014, 25th meeting held on 14th and 15th February 2014, 26th meeting held on 20th and 21st March 2014 and 29th meeting held on 2nd and 3rd May 2014 AND on the basis of the supporting documents enclosed with the application viz., the Form – 1, questionnaire for mining projects, pre-feasibility report, Environment Management Plan and the additional clarifications including a map showing a buffer distance of 50 m from the forest land on the north furnished in response to the observations, the SEAC Kerala recommended environmental clearance to the project.

The proposed project activity involves about 100 % of the pit area for exploring building stone. At the end of life of mine, excavated pit will be backfilled and reclaimed and rehabilitated by plantation leaving no void. The proposed project does not involve any underground mining activities. The mining

Environmental Clearance No. 160/SEIAA/KL/3490/2013

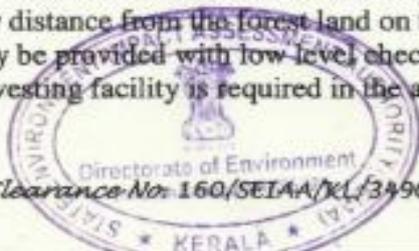

Page 1 of 6

will be done by open cast semi mechanized method. The bench height and width proposed is 5 m. The exploitation of mineral is being done from 225 m MSL to 125 m MSL in conceptual phase. The ultimate depth of the mine workings is estimated to be 125 m MSL. Part of the proposed land is already under mining and there is no top soil in those areas. The remaining land is having top soil with average thickness of 1 m to 3 m. About 1,55,440 m³ of top soil will be generated from the proposed pit, which will be properly stacked within their own property but outside the lease area and will be utilized for plantation over the reclaimed areas. The sewage of 0.8 KLD generated from the mine office will be diverted to the septic tank followed by soak pit. The municipal solid waste generated from the labour quarter will be disposed. The sludge generated from the septic tank will be dried and used as manure in plantation. The daily water requirement of 5 KLD will be met from open well water/storm water collection pond. The total power requirement of 75 kW will be drawn from diesel engine. There will be fugitive emissions generated during material handling, transportation, loading, unloading, etc. that are proposed to be managed by regular water sprinkling on haul road, green belt development, avoiding overloading of vehicles, maintaining the speed of vehicles within prescribed limits and covering the load with tarpaulin sheets. Plantation with shrubs, herbs and trees will be done as part of eco-restoration work. Anticipating 50 % growth rate, at the end of life of mine about 9,000 trees will be grown in total area of 9.3928 hectares. As per the biodiversity listing provided by the proponent, there is no floral or faunal species existing at site which are in the red listed category or schedule 1 species. Kalpathi Puzha is located at a distance of 8 km S, thodu at a distance of 2 km S, a water fall at a distance of 2 km SE, Dhoni Forest at 7.5 m N & E and Malampuzha Dam Water Catchment Area at a distance of 2.4 km NE of the project site. Electrical high tension line is at a distance of 700 m W and Mobile tower at a distance of 1 km W of the project site. There are no houses within 500 m radius from the proposed quarry. The quarry is interlinked with a crusher unit located within the complex. As stated by the proponent, there is no litigation pending against the lease area / applicant of the lease area in any court of law. The total cost of the project is ₹ 2.50 Crores.

The SEIAA, after due consideration of the relevant documents and additional clarifications submitted by the project proponent, and in view of the recommendations of SEAC, approved for issuance of Environmental Clearance for the project mentioned above at its 30th meeting held on 9th May 2014. Accordingly, the State Level Environment Impact Assessment Authority (SEIAA) Kerala constituted by Govt. of India vide Notification No. S.O. 2484(E) dt. 3-11-2011 of Ministry of Environment and Forests, Govt. of India, published as Gazette extraordinary No. 2074 on 3-11-2011 and further amended by Govt. of India vide Notification No. S.O. 546(E) dt.25.02.2014 of Ministry of Environment and Forests, Govt. of India, published as Gazette extraordinary No. 466 dated 25-02-2014, hereby accord necessary Environmental Clearance for the quarry project in Sy. Nos. 2, 14, 15 and 16/1 at Akathethara Village and Panchayath, Palakkad Taluk, Palakkad District, Kerala by M/s Royal Sand & Gravels Pvt. Ltd. as per powers vested with it under the provisions of Environment Impact Assessment Notification – 2006 and subsequent amendments and also under the provisions made in the O.M. No. L-11011/47/2011-IA.II(M) dated 18th May 2012 of the Ministry of Environment and Forests, Government of India, and further subject to strict compliance of the following specific conditions, and the general conditions contained in the Annexure, which shall also form a part of this document:

1. Limit quarry to the stream on the eastern side to permit unhindered flow of the stream.
2. Leave statutory distance from the forest land on the north.
3. The stream may be provided with low level check dams to trap silt.
4. Rain water harvesting facility is required in the absence of dependable source of water.

Environmental Clearance No. 160/SEIAA/KL/3490/2013

Page 2 of 6

Compliance of the above conditions will be monitored by the Directorate of the Department of Environment and Climate Change, Government of Kerala or its agencies and also by the Regional Office of the Ministry of Environment and Forests, Government of India located at Bangalore. Necessary support for entry and inspection should be provided by the project proponent to the staff of the Directorate and Ministry for monitoring purposes. In case of non-compliance of conditions, noted, if any, the Director, Department of Environment and Climate Change shall report the matter to the District Collector concerned to take necessary action under Environment Protection Act 1986.

The given address of correspondence of the Authorized Signatory of the project is:- Mr. Mohammed Fazeel T.A., Managing Director, M/s Royal Sand & Gravels Pvt. Ltd., Plaza Junction, Dhoni P.O., Palakkad, Kerala – 678009; Mob. No. 09447129278; Email: royal_grs@yahoo.com

Agency with NABET accreditation for EIA is:- M/s Enkay Enviro Services Pvt. Ltd., 24-B, Dadu Marg, Gopal Bari, Ajmer Road, Jaipur, Rajasthan-302001; Tel. No: 0141-4013996/4023996/4016996; Fax; 0141-4026996; Email: info@enkayenviro.com

The validity of EC is for a period of 15 years from 24.05.2014 subject to renewal in every five years.

STATE ENVIRONMENT IMPACT ASSESSMENT AUTHORITY KERALA

GENERAL CONDITIONS (for mining projects)

- (i) Rain Water Harvesting capacity should be installed as per the prevailing provisions of KMBR / KPBR, unless otherwise specified elsewhere.
- (ii) Environment Monitoring Cell as agreed under the affidavit filed by the proponent should be formed and made functional.
- (iii) Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, inclusive of approach road and internal roads.
- (iv) The project shall incorporate devices for solar energy generation and utilization wherever possible.
- (v) Sprinklers shall be installed and used in the project site to contain dust emissions.
- (vi) Eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.
- (vii) At least 10 percent out of the total excavated pit area should be retained as water storage areas and the remaining area should be reclaimed with stacked dumpings and overburden and planted with indigenous plant species that are eco-friendly.
- (viii) Corporate Social Responsibility (CSR) agreed upon by the proponent should be implemented in tune with the conditions specified in the Companies Act, 2013.
- (ix) Barbed metal wire fencing around the mining area shall be provided with a height of not less than 5 ft so that falling of animals/human beings/dumping of garbages etc. does not happen.
- (x) Warning alarms indicating the time of blasting (to be done at specific timings) has to be arranged as per stipulations of Explosive Department.
- (xi) Control measures on noise and vibration prescribed by KSPCB should be implemented.
- (xii) Quarrying activities should be limited to day time as per KSPCB guidelines.
- (xiii) Blasting should be done in a controlled manner as specified by the regulations of Explosives Department or any other concerned agency.
- (xiv) A licensed person should supervise/ control the blasting operations.
- (xv) Access roads to the quarry shall be tarred to contain dust emissions that may arise during transportation of materials.
- (xvi) Overburden materials should be managed within the site and the old quarries, if any, should be reclaimed and restored.
- (xvii) Height of benches should not exceed 5 m and width should not be less than 5 m.
- (xviii) Mats to reduce fly rock blast to a maximum of 10 PPV should be provided.
- (xix) Mining depth should not exceed beyond 40 m, unless otherwise specified or not below the level of nearest stream bed, whichever is less.

Environmental Clearance No. 160/SEIAA/KL/3490/2013

Page 4 of 6

- (xx) No mining operations should be carried out at places having a slope greater than 45°.
- (xxi) Acoustic enclosures should have been provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB.
- (xxii) The workers on the site should be provided with the required protective equipment such as ear muffs, helmet, etc.
- (xxiii) Garland drains with clarifiers to be provided in the lower slopes around the core area to channelize storm water.
- (xxiv) The transportation of minerals should be done in covered trucks to contain dust emissions.
- (xxv) The proponent should plant trees at least 5 times of the loss that has been occurred while clearing the land for the project.
- (xxvi) Disposal of spent oil from diesel engines should be as specified under relevant Rules/ Regulations.
- (xxvii) Explosives should be stored in magazines in isolated place specified and approved by the Explosives Department.
- (xxviii) Norms of Kerala State Pollution Control Board should be adhered to regarding distance criteria of residences, roads, rivers and worship places.
- (xxix) 200 m buffer distance should be maintained from forest boundaries.
- (xxx) Consent from Kerala State Pollution Control Board under Water and Air Act(s) should have been obtained before initiating activity.
- (xxxi) All other statutory clearances should have been obtained, as applicable, by project proponents from the respective competent authorities including that for blasting and storage of explosives.
- (xxxii) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Authority.
- (xxxiii) The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- (xxxiv) The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.
- (xxxv) The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which (both the advertisement and the newspaper) shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the Department of Environment and Climate Change, Govt. of Kerala and may also be seen on the website of the Authority at www.seiaakerala.org. The advertisement should

be made within 10 days from the date of receipt of the Clearance letter and a copy of the same signed in all pages should be forwarded to the office of this Authority as confirmation.

- (xxxvi) A copy of the clearance letter shall be sent by the proponent to concerned Grama Panchayat/ District Panchayat/ Municipality/Corporation/Urban Local Body and also to the Local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The Environmental Clearance shall also be put on the website of the company by the proponent.
- (xxxvii) The proponent shall submit half yearly reports on the status of compliance of the stipulated EC conditions including results of monitored data (**both in hard copies as well as by e-mail**) and upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the respective Regional Office of MoEF, Govt. of India and also to the Directorate of Environment and Climate Change, Govt. of Kerala.
- (xxxviii) The details of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font of size of not less than 40.
- (xxxix) The proponent should provide notarized affidavit (*indicating the number and date of Environmental Clearance proceedings*) that all the conditions stipulated in the EC shall be scrupulously followed.

Approved/ For issue

**ANNEXURE – 1.1*****Proceedings of the State Environment Impact Assessment Authority
Kerala***

*Present: Dr.H.Nagesh Prabhu IFS (Retd.), Dr. Jayachandran.K, Member and
Dr.Usha Titus I.A.S., Member Secretary.*

Sub: SEIAA- Quarry Project in Survey Nos. 2, 14, 15 and 16/1 at Akathethara Village and Pachayath, Palakkad Taluk, Palakkad District, Kerala by M/s Royal Sand & Gravels Pvt. Ltd. - Environment Clearance – Accorded – Erratum – Orders issued

State Environment Impact Assessment Authority, Kerala**No. 160/SEIAA/KL/3490/2013****dated, Thiruvananthapuram 16.02.2019**

- Ref:-** 1. E.C. issued vide Proceedings No.160/SEIAA/KL/3490/2013 dt.24.05.2014
2. Representation received on 14.01.2019 from Sri.Mohammed Fazeel T.A
3. Minutes of the 88th meeting of SEIAA held on 25.01.2019

ERRATUM

Environmental Clearance was issued to Sri.Mohammed Fazeel T.A, Managing Director, M/s Royal Sand & Gravels Pvt. Ltd, Plaza Junction, Dhoni P.O, Palakkad, Kerala – 678 009 for the quarry project in Sy. Nos. 2, 14, 15 and 16/1 at Akathethara Village and Panchayath, Palakkad Taluk, Palakkad District, for an area of 9.3928 hectares based on the decision of 30th meeting of SEIAA held on 09.05.2014, vide reference 1st above.

The proponent, vide reference 2nd cited above has submitted an application for renewal of EC. The matter has been examined and found that at the front page of the Order granting EC, it is mentioned that validity expires on 23.05.2019. In the Order granting EC to the proponent it is stated that the EC is for a period of 15 years from 24.05.2015 subject to renewal in every five years.

The matter was placed in the 88th meeting of SEIAA held on 25.01.2019, Authority observed that the term 'renewal' in EC No.160/SEIAA/KL/3490/2013 dated. 24.05.2014

creates ambiguity, hence decided to replace the word 'renewal' with 'review'. The validity of the EC will be 15 years from 24.05.2014 subject to review in every 5 years.

As decided by SEIAA the word 'renewal' referred in the 8th paragraph of the Order read as 1st paper above is modified and corrected to read as 'review'. The validity of the EC will be 15 years from 24.05.2014 subject to review in every 5 years.

The Environmental Clearance issued as per the paper read as 1st paper above stands modified to the above extent only.

(Regional Office, Southern Zone)
Bangalore-560 034

INSPECTION REPORT

E-File No. 12.1/2014-15/15/SEIAA/KER/

1	Name of the project	Environmental Clearance for a Building Stone Quarry Project of Sri. Mohammed Fazeel T.A. in Survey Nos. 2,14,15 and 16/1 at Akathethara Village and Panchayat, Palakkad Taluk, Palakkad District, Kerala in an area of 9.3928 Ha.
2	Environmental Clearance Details	EC No. 160/SEIAA/KL/3490/2013 dated 24.05.2014. EC Erratum No. 160/SEIAA/KL/3490/2013 dated 16.02.2019.
3	Location: District & State / UT	Akathethara Village and Panchayat, Palakkad Taluk, Palakkad District, Kerala
4	Address for correspondence:	Sri. Mohammed Fazeel T.A. M/s. Royal Sand and Gravels Pvt. Ltd Thepparambil House, Thrithalloor West Post, Thrissur, Kerala-680 619.
5	Date of site visit for this report	03.04.2024.

BRIEF ON THE PROJECT ALONG WITH THE PRESENT STATUS:

Building stone quarry project of Sri. Mohammed Fazeel T.A has obtained Environmental Clearance (EC) from the State Environment Impact Assessment Authority (SEIAA), Kerala for quarrying of 3,50,000 MTA of building stone in from an area of 9.3928 hectares of land vide EC No. 160/SEIAA/KL/3490/2013 dated 24.05.2014 and subsequent Erratum vide No. 160/SEIAA/KL/3490/2013 dated 16.02.2019 at Akathethara Village and Panchayat, Palakkad Taluk, Palakkad District, Kerala. Based on verification of the EC Erratum dated 16.02.2019, it was noted that the validity of the EC is for a period of 15 years from 24.05.2019 subject to review in every 5 years.

This project site was inspected by the undersigned on 03.04.2024 and during the inspection, it was noted that the Quarry was in Operation and PP had a valid EC till 23.05.2029 subject to review in every 5 years from 24.05.2019. Based on records made available for verification, it was noted that PP has obtained permissions from other relevant agencies like Consent to Operate (CTO) from Kerala State Pollution Control Board (KSPCB) and the same is valid till 01.12.2024; Permission from Akathethara Grama Panchayat and the same is valid till 31.03.2025; Explosives License from PESO and the same is valid till 31.03.2025 and the mining lease was executed on 22.08.2014 for a period of 12 years and accordingly mining lease is valid till 21.08.2026 for an area of 7.0655 Ha and for an annual production of 1,00,000 MTA. Further, PP executed an additional Mining Lease on 12.02.2020, wherein the production capacity in Mining Lease was enhanced from 1,00,000 MTA to 3,00,000 MTA against a permitted quantity of 3,50,000 MTA in EC.

Further, it is also to note that the responsibility for ensuring compliance to these EC conditions is vested with concerned local enforcement agencies like District Collector, DMG, KSPCB etc. under various Acts like Environment (Protection) Act, 1986, Air Act, 1981, Water Act, 1974 etc. Based on the documents made available during and after the inspection for establishing compliance to EC conditions by the project authorities and as verified during the physical inspection of the project site, an inspection report is prepared detailing point wise compliance to EC Specific and General conditions as below:

Ch. P. Prudhvi Krishna

S. No	EC Condition	Status of Compliance
SPECIFIC CONDITIONS		
1	Limit quarry to the stream on the eastern side to permit unhindered flow of the stream.	During inspection, it was noted that PP had taken adequate measures for unhindered flow of water from the seasonal nallah/ stream and provisions were made as such that all the water coming from the stream was allowed to enter a rainwater harvesting pond after desiltation and after clarification only, the water was allowed to flow outside. PP has constructed 3 number of de-siltation ponds. However, on the day of inspection, no water was seen flowing from the stream due to the absence of rains since past few days.
2	Leave statutory distance from the forest land on the north.	During inspection, it was noted that on the Northern side of the quarry lease area exists forest land. Based on perusal of Para No. 2 (Page-1 of EC), it is noted that 50 m has been stipulated as a statutory distance to be maintained as buffer distance from the forest land on the North. Accordingly, during inspection, it was observed that PP has maintained a buffer of 50 m from the forest boundary to the quarrying area and fencing was done to demarcate the same. The same needs to be ensured by Forest Department from time to time.
3	The stream may be provided with low level check dams to trap silt.	During inspection, it was observed that the water that is supposed to pass through the seasonal stream/ nallah canal is being allowed to pass through 3 desiltation tanks and after that it is allowed to be collected into a rainwater harvesting pond and after clarification it is being allowed to pass outside to ensure that the silt is trapped adequately. On the day of inspection, the same could not be verified as there was no rain and water was not flowing from the seasonal streams. It was noted that de-siltation ponds are provided to clarify the storm water for avoiding silt from reaching the main streams and PP has been directed to ensure desiltation every year before the onset of Monsoon season. A check dam was also noted to exist in the quarry.
4	Rainwater harvesting facility is required in the absence of dependable source of water.	During the inspection, it was noted that PP has developed one pit as rainwater harvesting pit for storage of rainwater. The approximate dimension of the large pit is Length=20 Mtrs; Width=12 Mtrs and Depth=5 Mtrs. It was informed by the PP that this stored rainwater is being used for dust suppression of haulage roads and internal roads as well as for greenbelt/ avenue plantation. Further, it was also noted that KMBR/KPBR provisions of rainwater harvesting as per Chapter XVI-A are not fully applicable to quarry projects and no specific reference regarding the size of the rainwater harvesting pit mentioned in EC and the same needs to be ascertained by Local KMBR/KPBR related implementing agencies.

Ch. Puwalikrishna

GENERAL CONDITIONS

1	Rainwater harvesting facility should be installed as per the prevailing provisions of KMBR/KPBR, unless otherwise specified.	Same as detailed in Specific Condition No. 4
---	--	--

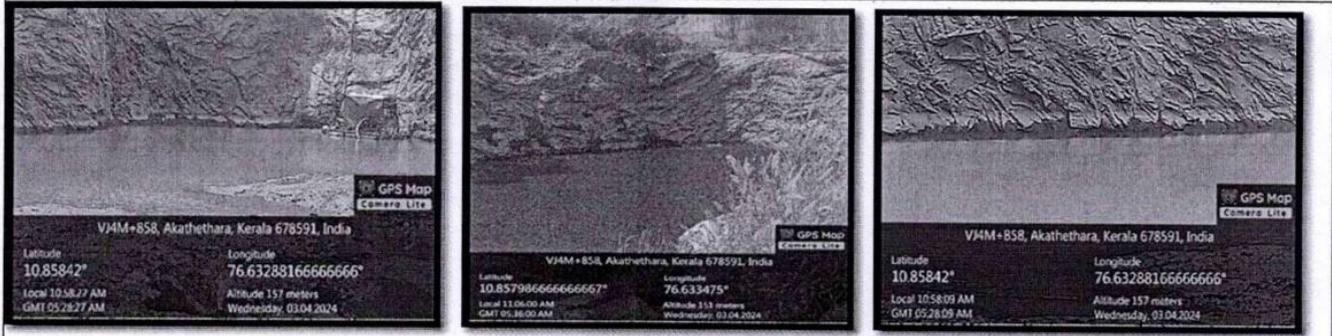

Fig 1-3: Rainwater Harvesting Pits

2	Environment Monitoring cell as agreed under the affidavit filed by the proponent should be formed and made functional.	Based on verification of records, it was noted that PP has constituted an Environment Monitoring Cell (EMC) and a hard bound register was also maintained for recording the deliberations of the EMC from time to time. As per records verified it was noted that EMC was headed by Mr. Fazeel and verification of records indicated that the last meeting of the EMC was convened on 18.03.2024.
---	--	---

3	Suitable avenue trees should be planted along either side of the tarred road and open parking areas, if any, inclusive of approach road and internal roads	As per the records made available, it was noted that PP has planted about 5000 number of tree saplings during the period 2016-2023 on the sides of the approach road and in the quarry area. During the physical verification, it was noted that PP has planted avenue trees along the sides of the approach road which mainly included <i>Neem, Amla, Teak, Passion Fruit, Mahogany, etc.</i> Based on discussions it was ascertained that the average survival rate of these avenue plantations is about 70% only and accordingly, PP has been advised to undertake avenue plantation preferably with native and indigenous plant species to increase survival rate. Further, it was also noted that PP has maintained different gardens like Herbal Garden, where several rare medicinal plants were also grown and cultivated.
---	--	--

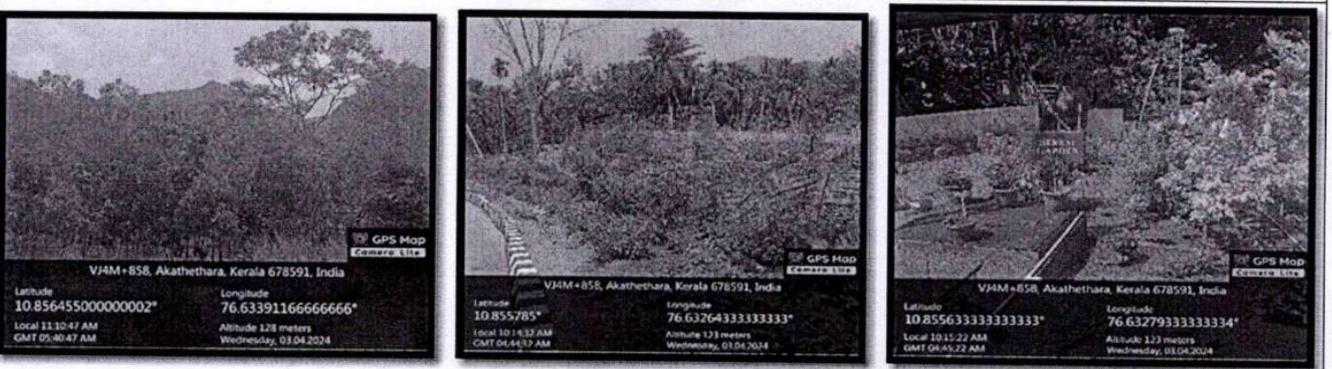

Fig 4-6: Greenbelt/ Plantations in the Quarry

Ch. P. P. K. Krishna

4	The project shall incorporate devices for solar energy generation and utilization wherever possible.	During inspection, it was found that PP has installed 7 number of solar streetlights in the quarry area. In absence of any specific numbers stipulated by SEIAA in EC, PP informed that they have installed 7 solar streetlights only.
5	Sprinklers shall be installed and used in the project site to contain dust emissions.	During inspection, it was found that PP has installed about 200 number of stationary water sprinklers all along the approach road, internal areas and in areas around crusher, greenbelt areas etc. for dust suppression Further, PP has also deployed 1 water tanker of 3,000 L capacity for spraying of water on haulage roads and in other remote areas like OB dump area and near the quarry pit for suppression of dust emission.

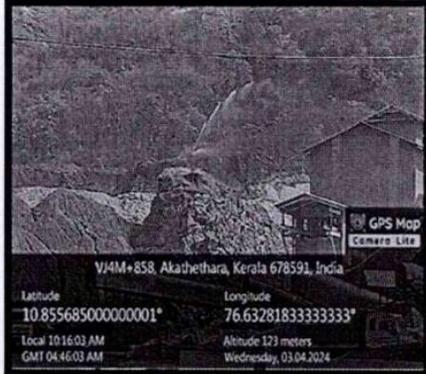

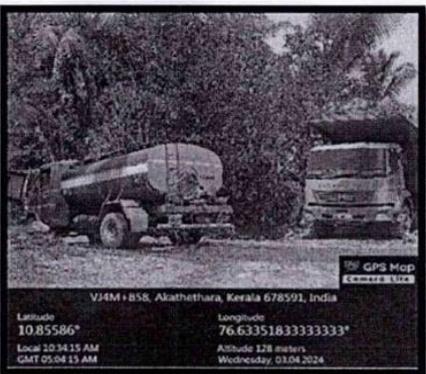

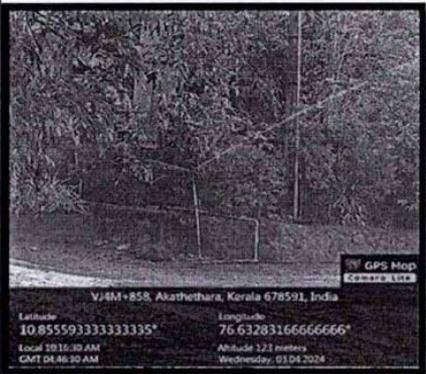

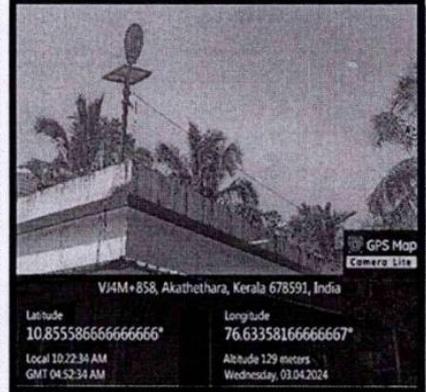

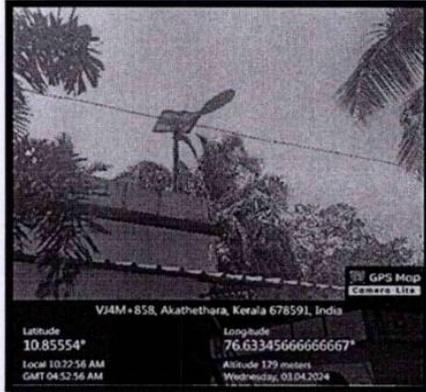

Fig 7-9: Solar Streetlights

Fig 10-12: Water Sprinklers and Water Tanker

6	Eco-restoration including the mine closure plan shall be done at the own cost of the project proponent.	Based on verification of records, it was noted that the life of the mine as per EC is 28 years and the validity of the EC is for 15 years subject to review every 5 years. PP has executed mining Lease for 12 years starting 22.08.2014 with annual production of 1,00,000 MTA from an area of 7.0655 Ha and PP has executed another supplementary lease deed on 12.02.2020, wherein the production capacity was enhanced from 1,00,000 MTA to 3,00,000 MTA without increasing the lease area. Further, it was also noted that PP was undertaking mining operations as per the Mining Plan approved on 05.09.2016 and Scheme of the Mine approved on 22.02.2021 by the District Geologist. However, compliance to this
7	At least 10 percent out of the total excavated pit area should be retained as water storage areas and the remaining area should be reclaimed with stacked dumping and over burden and planted with indigenous plant species that are eco- friendly, if no other specific condition on reclamation of pit is stipulated in the E.C.	

Ch. Prudhvi Kiran

condition needs to be specifically ascertained by Department of Mining and Geology (DMG) and other local enforcement agencies from time to time as the approval for the Mining Plan and Scheme of the Mine has been duly approved by the DM&G only and Movement Permits are issued from time to time by the same Department. Based on records made available, it was noted that PP has appointed Mr. A. Avadaiyappan (Second-Class Mines Manager and Mr. Jagrapu Ganesh (Foreman) for overseeing the Mining/ Quarry operations from time to time.

Fig 13-18: Mining Plan/ Scheme of Mine and Village Survey Map

8	Corporate Social Responsibility (CSR) agreed upon by the proponent should be implemented.	Based on verification of records/bills/vouchers/ receipts that were made available for examination indicated that PP has been undertaking several CSR/CER activities in the region and have been generously contributing to the socio-economic needs of the local community. As per the duly Audited Statement of Expenditure provided by Balaram and Nandakumar, Chartered Accountants vide their letter dated 12.04.2024, PP has spent an amount of Rs. 20,97,246/- towards CSR activities during the period 2019-2020 and 2023-2024.
9	Barbed metal wire fencing around the mining area shall be provided with a height of not less than 4 ft so that falling of animals /	During the inspection, it was noted that PP has erected fencing with barbed wire of about 4 feet, all around the quarry lease area as per MMR 1961, Regulation No. 177 to prevent

Ch. Puvul. Krishna

15	Access roads to the quarry shall be tarred to contain dust emissions that may arise during transportation of materials.	During inspection, it was seen that the access and approach road were tarred and were in motorable condition. Further, PP has installed water sprinklers all along the approach and internal roads for suppression of dust emission.
----	---	--

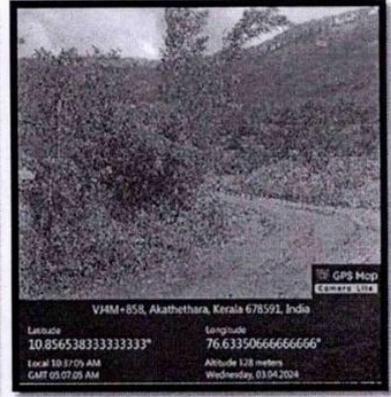

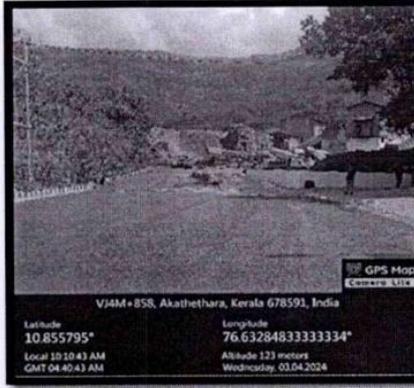

Fig 22-24: Approach and Internal Roads

16	Overburden materials should be managed within the site and used for reclamation of mine pit as per mine closure plan / specific conditions.	During the inspection, it was noted that over burden material and topsoil are kept within the premises for future use during the reclamation of mine pit in a separate place as specified by the District Geologist and duly approved Mining Plan dated 05.09.2016 and Scheme of Mine dated 22.02.2021. It was observed that OB is dumped in a separate place with bench wise formation in a scientific manner and PP was exploring the possibility of growing different types of grasses/ plant species on the OB dump for its future stabilization of the dump. Near the mining area and besides the seasonal stream on the Northern side, huge quantity of OB was noted, and PP has been directed to ensure the disposal of the same in a scientific manner at the earliest as per Rules and in consultation with District Geologist, if required. Based on verification of records, it was noted that the life of the mine is for 28 years, and Lease deed is valid till 21.08.2026 and PP agreed to comply with the Mine Closure Plan after the completion of the life of the mine.
----	---	--

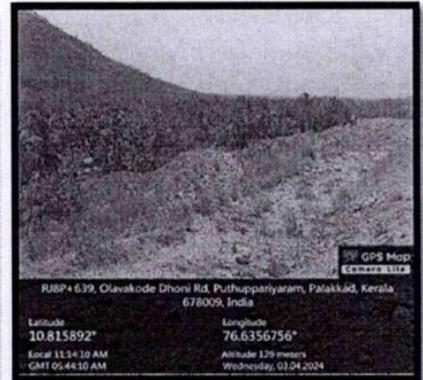

Fig 25-27: Over Burden Storage Area

Ch. P. P. K. Krishna

17	Height of benches should not exceed 5 m, and width should not be less than 5 m, if there is no mention in the mining plan/specific condition.	This EC condition specifically relates to the Department of Mining and Geology (DM&G) and the responsibility for ensuring compliance to the same is vested with DM&G only. During the inspection, it was observed that PP has maintained 4-5 benches in the quarrying pit. It was noted that all quarry operations are conducted as per the approved Mining Plan duly approved by the District Geologist. It was noted that officials of DM&G inspect these quarries at regular intervals and conduct surveys to ensure safe conduct of mining operations within the permitted lease area and also as per duly approved Mining Plan and if any discrepancies like conduct of mining operations out of lease area or non-maintenance of buffer area or benches and extraction of additional quantity of material than permitted etc. are noted then immediately appropriate amount of penalties are levied and damages are recovered. Based on verification of the report submitted by District Collector, Palakkad on 15.06.2022 as 5 th Respondent in OA No. 124 of 2021, it is noted that a detailed survey was conducted by DM&G through Taluk Surveyor, Palakkad and Surveyors from the office of The Deputy Director of Survey, Palakkad and noted that no excess mining was done and mining activities were conducted within permitted lease only.
----	---	---

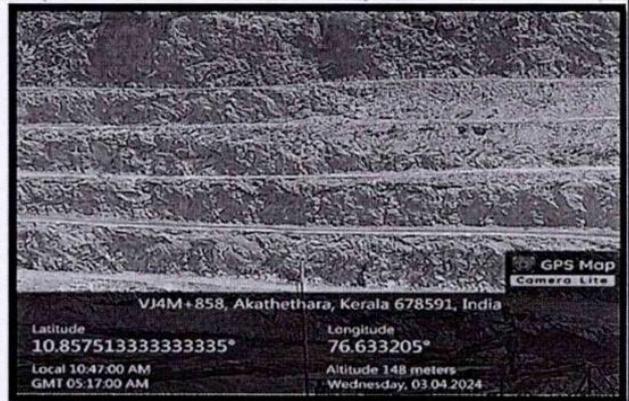

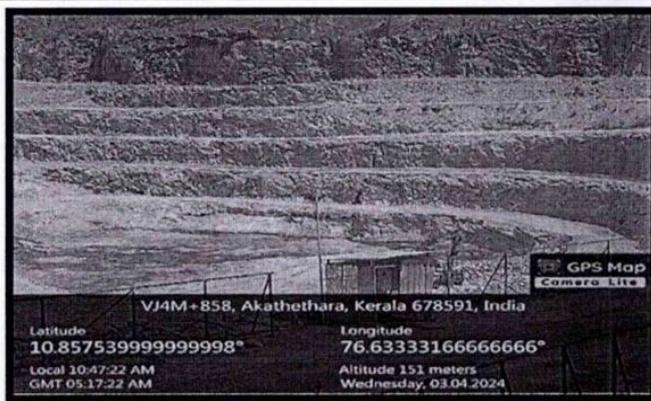

Fig 28-29: Benches in the Quarry

18	Mats to reduce fly rock blast to a maximum of 15 PPV should be provided.	During inspection, blasting mats were seen in the quarry area and the Mines Manager informed that these mats were used regularly during blasting to cover the blasting holes for avoiding maximum dispersion of material after the blast.
19	Maximum depth of mining from general ground level at site shall not exceed 40m.	This EC condition is specifically pertaining to DMG, and officials of DMG need to ensure whether mining/ quarrying operations are strictly conducted as per duly approved mining plan or not as DMG is the concerned agency through District Geologist, that has accorded approval for Mining Plan on 05.09.2016. Verification of EC (Page 2/6) indicated that the ultimate depth of the mine working is estimated at 125 MSL.
20	No mining operations should be carried out at places having a slope greater than 45°.	

Ch. P. P. K. K.

		Reportedly, PP is not conducting any mining operations at slopes greater than 45° and during inspection, PP has created benches in the quarry working pit.
21	Acoustic enclosures should have been provided to reduce sound amplifications in addition to the provisions of green belt and hollow brick envelop for crushers so that the noise level is kept within prescribed standards given by CPCB/KSPCB.	During physical inspection, 200 TPH crusher was seen in the quarry lease area and the same was covered with acoustic enclosures and during inspection, no noise or dust emissions noticed, and verification of the latest noise monitoring report furnished by PP dated 21.03.2024 carried out by M/s. Standard Environmental and Analytical Laboratories (MoEF&CC and NABL recognized Lab) indicated all the measured values to be within stipulated norms.

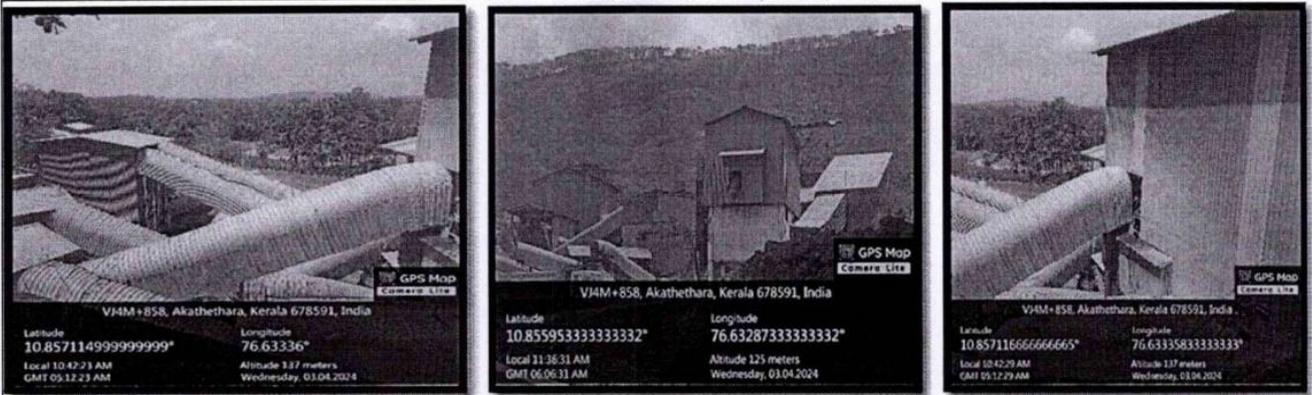

Fig 30-32: 200 TPH Crusher in Acoustic Enclosure

22	The workers on the site should be provided with the required protective equipment such as earmuffs, helmet, etc.	During inspection, the quarry and crusher were in operation and workers were seen to be wearing helmets, shoes, gloves, reflecting jackets, ear plugs etc.
----	--	--

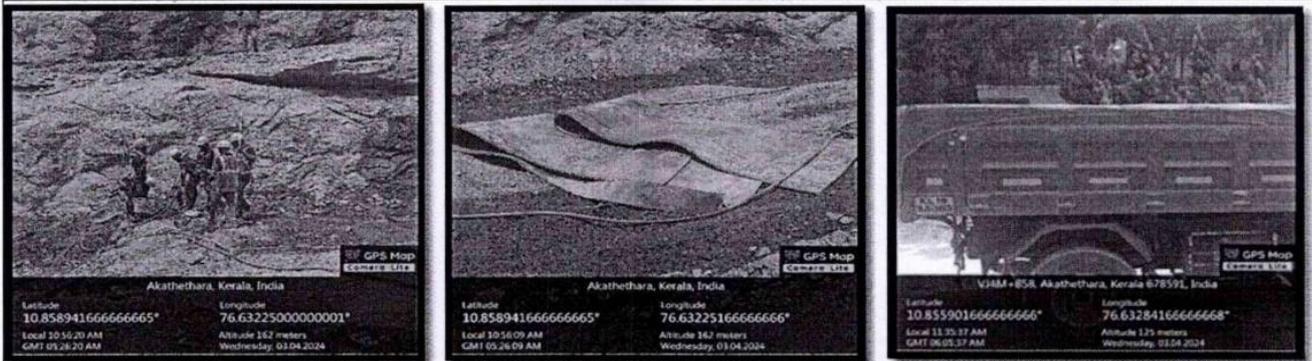

Fig 33-35: Workers with PPEs, Blasting Mats and Covered Transportation of Material

23	Garland drains with clarifiers to be provided in the lower slopes around the core area to channelize storm water.	During the inspection, it was found that project proponent have constructed garland drains in slopy terrains (about 150-200 Mtrs) and have constructed 3 number of de-siltation ponds as part of storm water management system on the area from where the seasonal stream was flowing to ensure uninterrupted flow of water as well as to clarify the storm water for avoiding silt from reaching the main streams and PP has been directed to ensure desiltation every year before the onset of Monsoon season.
----	---	--

Ch. P. Ravi Krishna

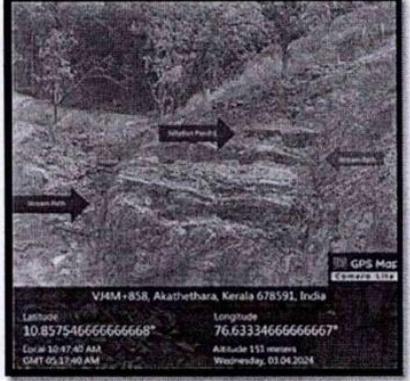

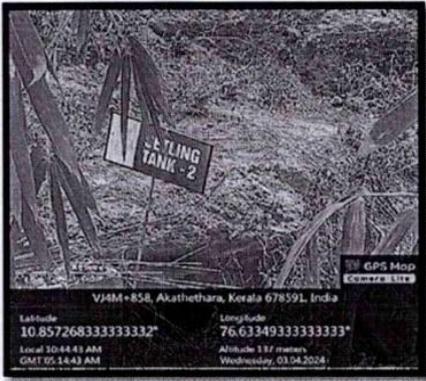

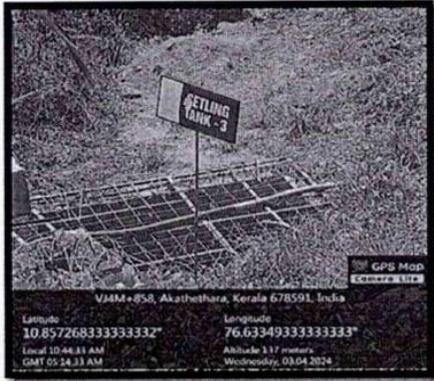

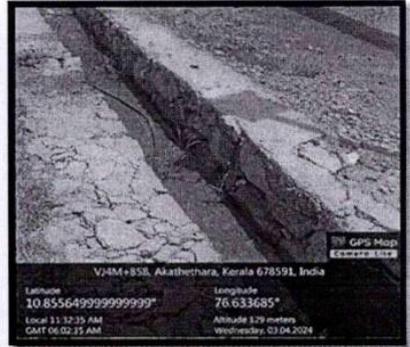

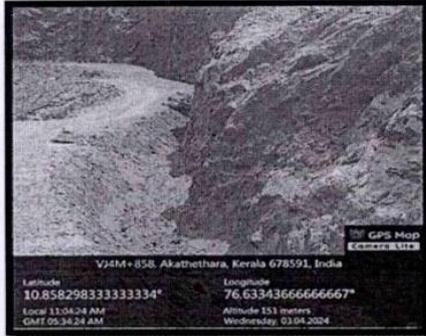

Fig 36-38: Garland Drains

Fig 39-41: De-siltation Tanks and Path of Seasonal Stream

24	The transportation of minerals should be done in covered trucks to contain dust emissions.	During inspection, trucks that were carrying the material from crusher were found to be covered with green colour mesh cloth and were sprinkled with water to avoid dust emission during transportation.
25	The proponent should plant trees at least 5 times of the loss that has been occurred while clearing the land for the project.	Same as detailed in General Condition No. 3 above.
26	Disposal of spent oil from diesel engines should be as specified under relevant Rules/Regulations.	During inspection, 2 DG set of 1010 KVA and 808 KVA were seen in the quarry lease area and PP also informed that they were disposing the same through authorized vendors.
27	Explosives should be stored in magazines in isolated place specified and approved by the Explosives Department.	This EC condition is specifically relating to Explosives Department and needs to be ascertained by them only from time to time regarding the specific location for placing Magazine and to ascertain that, it is the same location that was recommended by their department earlier for housing Magazine. During inspection, it was seen that explosives are stored in an isolated place with proper lock and fencing/ gate. Based on verification of daily stock register of Explosives (RE-3 and RE-5), it was noted that stock of explosive materials in Magazine was inspected by the concerned area Station House Officer (SHO) on 25.03.2024 and duly appended his signature also.

Dr. P. Ravi Krishna

	the E.C is issued, the project would require a fresh appraisal by this Authority, for which the proponent shall apply and get the approval of this Authority.	
33	The Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environment (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.	PP is aware of this EC condition and agreed to comply with the same.
34	The stipulations by Statutory Authorities under different Acts and Notifications should be complied with, including the provisions of Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and control of Pollution) act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.	PP is aware of this EC condition and reportedly complying with the same. Further, it was noted that there was a NGT case OA No 124/2021 in NGT (SZ) and the same was disposed by Hon'ble NGT vide its Order dated 20.12.2023 with a direction to M/s. Royal Sand and Gravels Pvt. Ltd to deposit an amount of Rs 10.00 Lakhs in the account of Kerala State Pollution Control Board (KSPCB) which needs to be utilized for improving the tree cover or other erosion control measures. Accordingly, PP on 11.01.2024 transferred the said amount of Rs. 10.00 Lakhs to KSPCB Account No. 67366954329 vide Journal No. 273034347. Further, KSPCB Palakkad District, Environmental Engineer vide his letter No. PCBDPK/51/2024-AE-1 dated 15.04.2024, acknowledged the receipt of Rs.10.00 lakhs on 11.01.2024 in compliance to the directions of Hon'ble NGT in OA No. 124/2021 (SZ) vide its order dated 20.12.2023 with a direction to be complied within 4 weeks from the date of Judgement.
35	The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which (both the advertisement and the newspaper) shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the State Environment Impact Assessment Authority (SEIAA) office and may also be seen on the website of the Authority at www.seiaakerala.org . The advertisement should be made within 10 days from the date of receipt of the Clearance letter and a copy of the same signed in all pages should be forwarded to the office of this Authority as confirmation.	As per the records verified, it was noted that PP has advertised regarding the grant of EC in The New Indian Express (English) and Kerala Kaumudhy (Malayalam) on 05.06.2014 and 04.06.2014 respectively. Further, PP has uploaded the copy of the EC's and latest half yearly compliance reports along with monitoring data in their website at www.royalsand.in

ch. P. P. K. Krishna

36	A copy of the clearance letter shall be sent by the proponent to concerned Grama Panchayat District Panchayat/ Municipality /Corporation /Urban Local Body and also to the Local NGO, if any, from whom suggestions representations, if any, were received while processing the proposal. Environmental Clearance shall also be put on the website of the company by the proponent.	Reportedly PP has shared a copy of the clearance letter to Akathethara Grama Panchayat and has also obtained permission/NOC for operation of the quarry vide No. A6-1696/2020-21-55 dated 27.04.2020 and the same are valid till 31.03.2025. Further, PP has uploaded the copy of the EC's and latest half yearly compliance reports along with monitoring data in their website at www.royalsand.in
37	The proponent shall submit half yearly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) and upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the respective Regional Office of MoEF, Govt of India and also to the State Environment Impact Assessment Authority (SEIAA) office.	As per records verified, it is noted that PP is regularly submitting the half yearly compliance reports along with air, noise, water quality monitoring reports also to the Regional Office of MoEF&CC at Bangalore by email as per stipulated timelines.
38	The details of Environmental Clearance should be prominently displayed in a metallic board of 3 ft x 3 ft with green background and yellow letters of Times New Roman font of size of not less than 40. Sign board with extent of lease area and boundaries shall be depicted at the entrance of the quarry, visible to the public.	During the inspection, it was noted that a metallic display board of 3 ft x 3 ft with green background with white letters of Times New Roman which was clearly visible was found at the entrance of the quarry and was visible to the public.

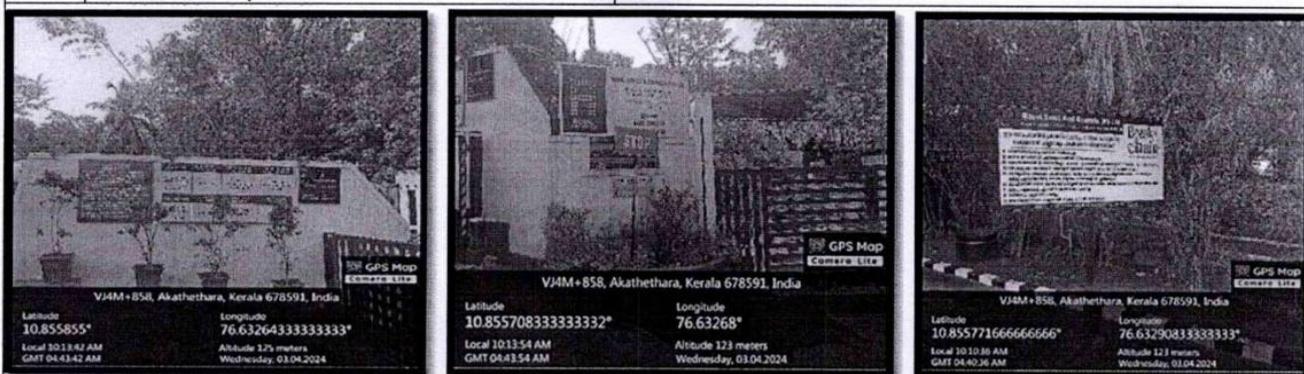

Fig 45-47: EC and Other Display Boards

ch. P. Prudhvi Krishna

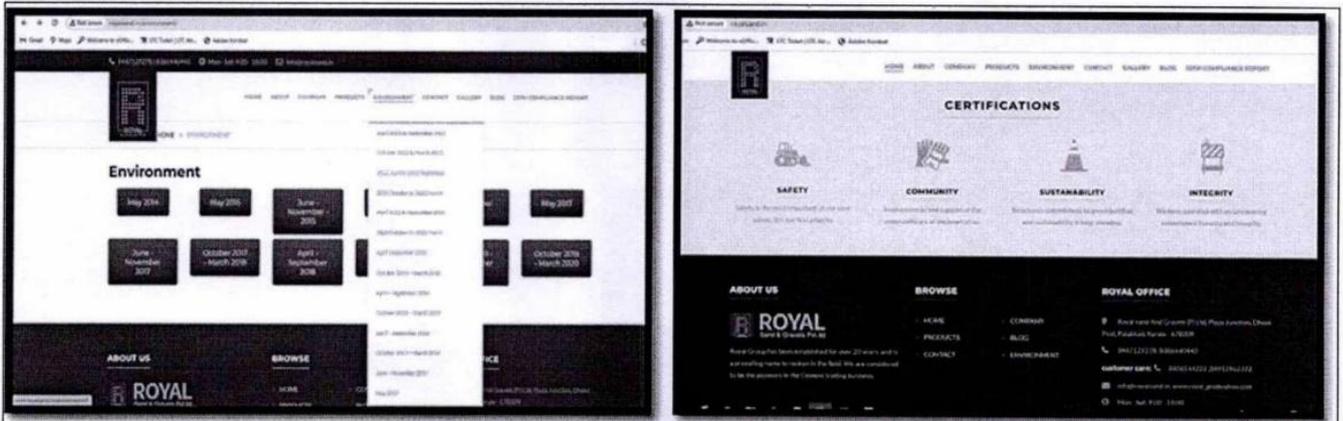

Fig 48-49: Uploading of HYCRs in the Website

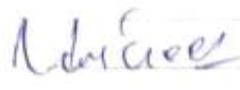

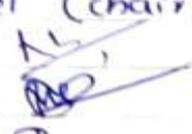

39	<p>The proponent should provide notarized affidavit (indicating the number and date of Environmental Clearance proceedings) that all the conditions stipulated in the EC shall be scrupulously followed.</p>	<p>Reportedly, PP has provided a copy of the EC to SEIAA after the grant of EC on 24.05.2014 and accordingly compliance needs to be ascertained by SEIAA only.</p>

Witnesseth that in consideration of the rents and royalties and lessee covenants, hereinafter reserved and contained the State Government both hereby demise upto the lessee the land measuring 7.0655 hectares described in the schedule hereunder the delineated on the plan here to annexed and therein coloured red (hereinafter called the "said lands") to hold the same for a period of 12 (twelve) years commencing from the Twenty second day of August 2014 and ending on the Twenty first day of August 2026 for the purposes of extracting minor minerals and subject to the terms and conditions contained in the Kerala Minor - Mineral Concession rules, 1967 (hereinafter referred to as "the Rules") and to the terms and conditions hereinafter appearing.

1. The lessee shall have the right in and upon the said lands to extract Granite Building Stone (hereinafter called the said mineral) and to do all acts necessary for the extraction of the said mineral including the erection on the said lands, buildings and plant required for the purposes and also to take lead and carry away over the said lands and to dispose off the said minerals extracted as aforesaid.
2. The lessee shall during the subsistence of this lease have the liberty to work the said mineral and remove the same from the quarry hold on permits issued by the State Government /Competent authority or any other officer authorised by him in this regard. The permits shall be issued only on the basis of pre-paid royalty at the rates specified in schedule I to these Rules. The royalty rates shall be subject to revision from time to time as the State Government may order.
3. The lessee shall pay to the State Government an yearly surface rent equal to the land revenue if any, assessable under the rules for the time being the force, or if the land be the property of Government or in reserve forest then equal to the land revenue plus cess, if any per hectare of the land the surface whereof shall be occupied or used by the lessee for any of the purposes of this demise and so in proportion for any area less than a hectare. The said surface rent shall be paid by yearly payments, the first of such payments to be made on or before the last day of the first year of occupation provided always that no such rent shall be paid or demanded in respect of any roads or ways now in existence.
4. The lessee shall at all time during the currency of this demise keep correct and intelligible books of account showing accurately the quantity of the said minerals extracted and the weight and value of the said mineral sold or exported together with the names of the purchasers or consignees. The lessee shall also, maintain a register of employees showing therein separately men, women and children employed daily and shall at all reasonable times allow the competent authority appointed under the rules (hereinafter referred to as "competent authority") or the officer authorised by him/her/them to examine the said books of account and the register of employees and to take copies and extracts there from. The lessee shall submit reports in Forms 'F' and 'G' on the specified dates.

5. All sums found due under or by virtue of this deed from the lessee may be recovered from him jointly and severally from them and his/her/their properties movable and immovable under the provisions of the Revenue Recovery Act for the time being in force as though such sums are arrears of land revenue or in any other manner as the State Government may deem fit.
6. The lessee shall at the lessee's own expense erect and at all time maintain and keep in repair boundary marks and pillars along the boundaries of the said lands according to the demarcation shown in the plan hereto annexed.
7. No quarrying operations or working shall be carried on or permitted to be carried on by the lessee in or under the said lands at any point within a distance of 75 meters from any railway line except with the previous permission in writing of the railway administration concerned; and from any bridge on the National Highway or 50 meters from any reservoir, canal or other public works such as public roads and buildings or inhabited site, burial ground etc. shown on the plan thereto annexed except with the previous permission in writing of the State Government / competent authority or otherwise than in accordance with such instructions, restrictions and condition either general or special which may be attached to such permission. The said distance of 50 meters shall be measured in the case of a railway, reservoir, or canal horizontally from the outer edge of the bank or outer edge of the cutting, as the case may be and in the case of a building horizontally from the plinth thereof. In the case of village roads no workings shall be carried on within a distance of 10 meters of the outer edge of the cutting except with the previous permission in writing of the State Government / competent authority. For the purposes of this clause the expression "railway and railway administration" shall have the same meaning as defined in sub section (4) and (6) of section 3 of Indian Railway Act, 1890 (IX of 1890).
8. The sides of open workings shall sloped, stepped or secured by the lessee in such a manner as to prevent danger from falls of material, when an open working is worked in steps, steps shall be of sufficient breadth in relation to their height to secure safety. In open workings trees liable to fall and all loose ground and material shall be removed by the lessee sufficiently far from the edge or otherwise made source in order to prevent danger to persons employed in the quarry.
9. If a working place is found to be unsafe all persons shall be withdrawn by the lessee immediately from the dangerous area and all access to such working place except for the purpose of removing the danger of saving life shall be prevented by securely fencing the full width of all entrances to the place.
10. The lessee shall at all reasonable times allow any officer authorised by the Central Government or by the State Government in that behalf to inspect the said lands and the buildings and plants erected thereon and the lessee shall assist such persons in conducting the inspection and afford them all information they may reasonably require, and shall conform to and observe all orders which the Central and State Governments as the result of such inspection or otherwise, may from time to time pass.

- 10A The lessee shall be responsible for implementing the provisions of the various labour laws applicable, from time to time to the quarry.
11. The lessee shall not assign or underlet the said lands or any part thereof or the rights or privileges, therein hereby granted or any of them without the previous permission in writing of the State Government / Competent authority
- 11A Where the lease or any right, title or interest therein has been assigned, sublet or transferred as provided in rule 34 read with condition 11, then the person in whose favour such assignment, sublease or transfer has been made shall be responsible for implementing the provisions of the various labour laws applicable, from the time to time, to the quarry.
12. The lease may be surrendered by the lessee at any time after 3 months notice in writing to the State Government / Competent authority. Provided that the lessee has paid all sums due on account of the lease. Provided further that if the lessee elect to determine this lease before the expiry of the term of the lease, shall pay in addition to other dues a sum equal to the dead rent payable for the remaining part of the terms of the lease deed.
13. On the expiration of the term of this lease or on its earlier determination under clause 12 the lessee shall pay to the State Government for all land which has been rendered useless for agriculture through the exercise of the powers demised by this lease such sum as the District Collector may fix as equivalent to the capitalized value or the land revenue of such land rendered useless. The lease shall continue if the sums are not cleared before the date of determination of notice.
14. If the lessee shall be desirous of taking a further lease of the said lands for a further term of years he/they shall give three months previous notice in writing of such desire to the State Government / Competent authority and if the lessee has duly observed all the conditions of this lease, the State Government / competent authority may agree to renew the lease for such further term and on such terms and conditions as the State Government / competent authority may determine which shall be in accordance with the provisions of these rules.
15. If the lessee shall at any time during the said term use the said lands or any part thereof in any manner other than as authorised by this lease or fail to carry on quarrying operations continuously without sufficient cause of which the State Government / competent authority shall be the judge or shall commit a breach of any of the conditions of this lease it shall be lawful for the State Government / competent authority to cancel this lease and take possession of the said lands or in the alternative to receive from the lessee such penalty for the breach not exceeding five times the amount of the said yearly dead rent as the State Government / competent authority may fix.

16. If at the expiration of three calendar months after the expiry of the lease or its sooner determination, there shall remain in or upon the said lands, any engines, machinery, plant buildings, structures and other works erections and conveniences the said minerals or other property which the lessee is entitled to remove from the said lands, the same shall, if not removed by the lessee within one calendar month after notice in writing requiring their removal be given to the lessee by the State Government / competent authority be deemed to become the property of the State Government in such manner as they may deem fit without liability to pay any compensation or to account to the lessee in respect thereof.
17. This lease is subject to all rules and regulations which may from time to time be issued by the State Government regulating the working of the quarries and other matters affecting the safety, health and convenience of the lessee's employees or of the public, whether under the Indian Mines Act or other wise.
18. The lessee shall without delay send to the District Collector and the competent authority or the officer authorised by him in this regard report of any accident causing loss of life or serious bodily injuries or seriously affecting or endangering life or property which may at any time occur at or in the said lands in the course of operations under this lease.
19. The lessee shall furnish such reports and returns relating to output, labourers employed and other matters as the State Government may prescribe.
20. The lessee shall make and pay such reasonable satisfaction and compensation as may be assessed by lawful authority in accordance with the law in force on the subject for all damage, injury or disturbance which may be done by him/them in exercise of the powers granted by this lease and shall indemnify and shall keep indemnified fully and completely the State Government against all claims which may be made by any person or persons in respect of any such damage, injury or disturbance and all costs and expenses in connection therewith.
21. Any condition prescribed in the Kerala Minor Mineral Concession Rules, 1967, but left out in this lease which may be found applicable to the lessee shall be treated as binding on the lessee. In this case anticipated royalty for the mineral at the rate of Rs.16/- (Rupees Sixteen only) per tonne for a period of one year is Rs.16,00,000/- (Rupees Sixteen Lakhs only).
22. Dead rent realizable at the rate of Rs. 1st year Nil, 2nd year Rs.200/- and 3rd year onwards Rs.800/- per hectare subject to revision from time to time. Surface rent at the rate of Rs.200/- (Rupees Two hundred only) per hectare for 7.0655 hectare per year is Rs.1413/- (Rupees One thousand four hundred and thirteen only) security deposit is Rs.1,000/- (Rupees One thousand only).

2.

the one part and M/s. Royal Sand and Gravels Pvt. Ltd., Plaza Junction, Dhoni P. O, Palakkad District – 678 009 (Represented by its Managing Director, Shri. Mohammed Fazeel, Aged 40 years, S/o. Abdul Salam, Residing at Theparambil, Vadanappally, Trithalur West P. O, Thrissur District – 680 619 (Aadhaar No. 6925 2715 6240) (hereinafter called the “lessee/lessees” which expression shall where the context so admits, include his/their heirs, executors, administrators, representatives and permitted assigns) of the other part.

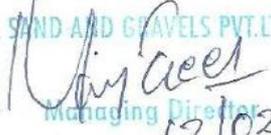

1. Whereas by order No. 281/2014-15/8473/M3/2014 dated. 02/08/2014 of the Director of Mining & Geology, a quarrying lease was granted to M/s. Royal Sand and Gravels Pvt. Ltd., Plaza Junction, Dhoni P. O, Palakkad District – 678 009 to quarry granite (building stones) over an area of 7.0655 Hectares of Private land comprised in Sy. Nos. 2/P, 14/P, 15/P, 16/1P, Block No. 25 of Akathethara Village of Palakkad Taluk, Palakkad District for 12 years as per Kerala Minor Mineral Concession Rules 1967.

2. Whereas a quarrying lease deed was registered on 26.09.2014 as No. 2486/2014 in Book No. I Volume No. 850, Pages 343 to 350 of Sub. Registrar Office, Olavakkodu.

3. Whereas the quarrying lease deed was executed for an average annual production of 1,00,000 metric tonnes of granite (building stone) as per the then grant order.

4. Whereas when the Kerala Minor Mineral Concession Rules 2015 came into force, mining plan and prior environmental clearance was made mandatory for grant of quarrying lease and the existing lessees were required to submit approved mining plan and permitted to mine the quantity specified in the approved mining plan.

5. Whereas the Hon'ble High Court of Kerala in Binoy Kumar Vs. State of Kerala case (2019 (2) KLT 227) has inexorably postulated that the person holding a valid quarrying lease from the Government can only extract the quantity permitted in the order granting the lease

6. Whereas the Mining and Geology Department restricted the annual production in the quarry as per the quantity allowed in the order granting the lease, in obedience to the above said judgment.

7. Whereas the Hon'ble High Court in WP (C) No. 1459/2020 permitted to issue additional quarrying lease to the lessee if the lessee possesses environmental clearance and approved mining plan.

8. Whereas the lessee is in possession of valid environmental clearance (No. 160/SEIAA/KL/3490/2013 dated. 24.05.2014 and 160/SEIAA/KL/3490/2013 dated 16.02.2019) granted and renewed by the State Environment Impact Assessment Authority, Kerala and is in possession of approved mining plan.

9. Whereas in the approved mining plan average annual production estimated is 3,00,000 tonnes which is 2,00,000 tonnes higher than the existing lease deed.

10. Whereas the lessee has submitted application dated 04.02.2020 to permit him to execute additional lease deed as per the judgement dated 22.01.2020 in W P (C) No. 1459/2020

11. Whereas as per Pro. Order No. 642/2019-20/11126/M3/2019/DMG dated. 06.02.2020 permission was granted to enhance the average annual quantity of extraction from 1,00,000 tonnes to 3,00,000 tonnes and to execute additional lease deed

Witnesseth that in consideration of the rents and royalties and lessee's covenants, hereinafter reserved and contained the State Government hereby enhance the quantity of annual extraction of granite (building stones) from 1,00,000 tonnes to 3,00,000 tonnes from the land measuring 7.0655 hectares (described in the schedule and on the plan annexed to the original lease deed) for a period commencing from the date of registration of additional lease deed and ending on 21.08.2026 subject to additional terms and conditions in the Proceedings order No. 642/2019-20/11126/M3/2019 /DMG dt. 06.02.2020 mentioned above

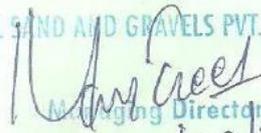

In this case, for the purpose of stamp duty, the enhanced average yearly production of granite (building stones) is **2,00,000** tonnes and the royalty per annum for the enhanced quantity is **Rs. 48,00,000 (Rupees forty eight lakhs only)**, at the present rate of royalty of **Rs. 24/-** per tonne.
